Candidate statement

As the State legislative chair, I have learned how the political system works in Virginia. Through the help of many people we have successfully obtained term protection. As a new delegate this past year, I have learned many things about the APTA political system that can be beneficial as we work to achieve improvements for our profession. I would like to use these skills in the House of Delegates to achieve full voting rights for our Physical Therapist Assistants. This will be a 5 year campaign that needs to have a well planned political strategy with incremental gains every year culminating in a positive vote for our Physical Therapist Assistants. I ask for your vote to help achieve this goal.
