Personal Statement:

As a member of the VPTA I believe it is vitally important to be directly involved with the decision making process of the association and to give our membership and profession a voice. My years of management experience and experience working with members of the VPTA in both a leadership and support role make me an excellent candidate for Vice President. I will use my skills to further the goals of the association and profession. It is an honor to be slated as a candidate and to run for office.
